SEVERE STORM BLOCKS DONNER HIGHWAY

SUN BEAMS

By WALTER M. BARRETT

The stories going out on the storm situation in the Truckee-Tahoe area are sometimes so obviously wrong they are comical, especially those on the radio. But there are times when they are not funny and the most recent of the latter was a story over a bay broadcast which said that Tahoe City would be snowed in for the balance of the winter. Should this prove true, it will mark a most unusual situation. Just as soon as the storm ends highway crews will plow out the highways to the famous Winter Sports center and traffic on the Tahoe road will be as free as elsewhere. We join with the good people of Tahoe in protesting such outlandish and untrue stories.

It does seem that when we have a chance for a real break in our program of winter sports, Mother Nature has a way of putting on the damper. We had plenty of snow for a swell week end yesterday, but the storm continues and before we realize it we have too much snow. If the current storm abates tomorrow as promised we will still have a good week end, and we sincerely hope that promise materializes.

Another tough break this week is the fact that the benefit show for the Truckee Outing Club, "Slalom", is on the screen at the Donner tonight Scores from Tahoe, the Summit and other localities who had planned to attend will be unable to do so. We here in Truckee, however, should all turn out and see this picture.

But the worst break of the week so far as the Winter Sports goes was the destruction of the warming room at the Ice Bowl. Fortunately the men inside were not hurt and plans are already being made to replace the buliding, but it offers a setback to be regretted.

Whether you believe it or not, this will be an excellent week end to do your shopping at home.

The Truckee Volunteer Fire De- [illegible] the new equipment last week during th Anderson fire. However, there is one important matter which might cause serious future delays and that is the fact that as soon as the fire siren sounds many rush to the phone to learn the location of the blaze with only idle curiousity. Chief Tom Dolley has asked the cooperation of residents in delaying their calls for at least five minutes to give the firemen a chance to call in. The operators are naturally very busy at the moment sounding the alarm and notifying the fire department officers but are glad to answer the calls on the fire location as soon as they have time. The firemen however, ask that they be permitted the use of the line for the first few minutes.

UTILITY DISTRICT IN GOOD CONDITION REPORT SHOWS

Surplus Greater Than Ever Despite Big Increase In Power Costs

EIGHTH BOND RETIRED

Suggestion Asked To Lower High Costs Of Power To District

The annual report of the Truckee Public Utility District shows that the past year has set a record in revenue and that despite the fact of the record breaking costs for the power, a $1000 depreciation fund and a $1300 reserve fund have been established and an increase of approximately $1500 in the amount of cash on hand is recorded.

Despite the fact that a depreciation fund has been set up, C. Edmunds, manager of the district, said that the major jortion of all depreciation is cared for out of the operating expense as the need arises.

The report shows that approximately $22,000 was received from operating revenue. Out of this sum the largest expense was for cost of power which totaled over $10,000. As a result of the steadily increasing cost of power, the directors of the district have asked the manager to submit a recommendation for a possible reduction.

The district now has nearly $5,000 on hand all expenses are paid and the eighth bond has been retired.

The district, according to those familar with its operation is in a more healthy condition than it has ever been and has a promising outlook.

History Of S. P. Recited Before Local Clubmen

Two New Members Added to Local Club During Meeting

The history of the Southern Pacific read by Al Pfaendler, local railroad officer, formed the interesting program presented before the Truckee Lions Club last night.

Two new members, N. F. Dolley and Claire P. Goode were initiated.

Pfaendler's recital of the founding and building of the transcontinental railroad by four Sacramento business men, Charles Crocker, Huntington Hopkins and Judy, told of the many interesting incidents, the trials and tribulations of the builders and the final completion of the road in 1869.

Of particular interest to Truckee was the story of the fight to bring the rails over the Sierra, during which time 14,000 Chinese laborers 2,000 whites and 6,000 teams of horses were employed.

The story climaxed with the fight between Southern or Central Pacific crews and the Union Pacific, building from East to West.

OUTING CLUB VOTES CONCESSION ON SKI EQUIPMENT HERE

The Truckee Outing Club, whose membership is growing by leaps and bounds, last Thursday went on record as favoring a 20 per cent concession on all ski and toboggan facilities for members of the organization.

It was also announced that the new insignias have arrived and are now available to members at the office of the secretary, C. Edmunds A charge of 50 cents each has been decided upon.

The insignias are beautifully designed by William Englehart, Jr. and offer a striking symbol for the local club. The letters, TOC in red on a white background are topped with a pioneer covered wagon stitched in gold, depicting the pioneering of the winter sports by Truckee.

FIRE DAMAGES TRUCKEE HOME; FIREMEN BUSY

New Apparatus In Action For First Time Shows Its Efficiency

Fire, which according to the owner originated in a back room of the house, Saturday afternoon gutted the home of Mr .and Mrs. H. O. Anderson, causing damage estimated by Fire Chief N. F. Dolley, at approximately $1,000.

Truckee's new fire apparatus was brought into action for the first time and readily demonstrated its value to the community.

The volunteers responede quickly to the alarm and in a very few minuets had the pumps operating and water pouring into the flames.

Neighbors and friends assisted in removing much of the furniture before the fire reached the living rooms.

The alarm was turned in by little Earl Smith, Jr., who had seen the smoke pouring out from under the snow covered eaves.

No one was in the house at the time, Anderson being engaged in his carpentry house adjoining. He said he heard the alarm, but being busy gave it little thought. It was not until the department arrived that Anderson realized it was his home that was ablaze.

Mr. and Mrs. Anderson expressed their appreciation for the valuable and efficient work of the department forest service and others who aided

RUMORS OF HOTEL BARRICADE END AS SUSPECT UNKNOWN

Wild rumors about town this morning to the effect that a notorious criminal wanted on several charges by eastern authorities had barricaded himself in a local hotel room where he defied officers to come and get him with threats that he was ready to "shoot it out," vanished when it was learned the man didn't even know he was a suspect and upon emerging from the hotel failed to meet in any detail the description of the wanted man.

It is true officers kept a vigil at the hotel following a "tip" that the suspect was registered there, but they dispersed when the man and his companions left their room.

OVER 5 FEET OF SNOW FALL IN THIS AREA

Prospects For Snow Sports In Truckee Good For Weekend

RAILROAD KEEPS OPEN

Two Cars Off Track Delay Rail Traffic; Drifts On Road Defy Crews

With the storm still raging this afternoon and nearly six feet of snow on the level, Truckee found itself in the grip of the season's most severe tempest.

Highway crews lost a valiant fight shortly after six o'clock Wednesday night when a hurricane wind formed mountainous drifts on the Donner Summit and the thoroughfare was closed to all traffic.

The road will remain closed until the storm breaks.

Roads to Tahoe City and Hobart Mills were completely blocked by the snow.

Snow plows were holding their own with the storm over the Southern Pacific. Two freight cars were derailed near Emigrant Gap and for a few hours traffic was tied up. A flanger went off the track in the yards at Truckee but no damage was reported. Traffic over the railroad was resumed and late today trains were running without trouble.

Prospects, according the U. S. Forest Service, were for continued snow tonight and tomorrow, with possibly clearing Friday night, bringing a good outlook for week end Winter Sports.

Official figures from the forest service at 8 o'clock this morning showed 68 inches for the storm since 11 o'clock Sunday night. The depth on the ground was over five feet on the level. The heaviest fall came Wednesday night and this morning when 32 inches were recorded.

Total precipitation for the storm the forest service said, was 6.24 inches, bringing the total for the season to 22.82 inches, 6.23 inches over the normal.

SKATE HOUSE CAVES IN

At about 10 o'clock this morning, the warming house at the Truckee Ice Bowl succumbed to the excessive weight of the snow and collapsed.

Henry Luhr and Sam Malleto, who are employed at the rink were in the building when it fell but were able to crawl from under the wreckage uninjured.

Frank Giovannoni saw the fall of the building and rushed the the aid of the men.

Snow shovelers were at a premium as the weight of the snow was becoming threatening on the roofs.

The adjoining garage will be used temporarily as a warming room while the destroyed house is being replaced.

Streets here were congested by stalled trucks and cars incapable of proceeding in any direction. One truck was loaded with live pigs and another with cattle.

There were 138 inches of snow on Donner Summit at 10 o'clock this morning. 68 inches were reported at Emigrant Gap and seven inches at Reno.

Heavy rains, swollen rivers and streams were creating a dangerous situation in the Sacramento Valley.

Telephone and power lines over the summit were kept in repair as crews of workmen were kept busy night and day. One of the main power lines between Drum and the summit went down but effects of the mishap were not felt here.

WINTER SPORTS DEVELOPMENT

The Forest Service is doing some splendid work and accomplishing some really worthwhile things in developing the Winter Sport areas in the National Forests. The move is a worthy one and should win the approval of the thousands of Winter Sport enthusiasts throughout the country.

There is one item in this vast program, however, which we find difficult to understand. In all this work, being done, completed and contemplated, Truckee, the original Winter Sports center of the state and still one of the most outstanding recreational fields to be found, is evidently completely forgotten or neglected. If this development is good for those many untried areas, where foundations have never been laid and where recognition has never been gained, then it stands to reason that it certainly should be good for this Truckee-Tahoe region.

We are as much a part of the great National Forests as scores of other localities. We are just as much entitled to the benefits being doled out as any other section and we would like to see this program, so well carried on in numerous other districts, brought into the Truckee-Tahoe field.

We sincerely believe that the money it is costing is well spent and we are certainly in favor of the work whereever it is done but if we are entitled to participate in the plan we then want our bit along with the other regions.

GIVE A THOUGHT TO LOCAL POLITICS

Even the best advised and the most learned sources seem at a loss to fathom the current political problem. No one is sure who is going to run for what or why. The gubernatorial as well as senatorial and virtually all the other higher state and national political posts are blanketed by a fog of doubt. But time will bring the answer and in the meantime why bother with useless speculation, for after all we should be more concerned with local potentialities.

It should mean a great deal more to us here in Truckee who will represent us in our county seat of government than who will be our next governor, U. S. Senator or attorney general. Naturally we are vitally interested in those important posts. It would be a bit un-American if we were not, but in the ultimate, it doesn't make much difference how we here in Truckee vote. If we all forgot to cast our ballot, the general results in a state-wide election would probably not be greatly effected. But in county politics we play an important role. We are in the position, small as we seem, to turn the tide in a close contest. So, therefore, let us be good citizens and do our part in state politics, but let's give our serious consideration to what we want locally.

Politically Speaking

By Jack Welter
United Press Staff Correspondent

SACRAMENTO, Feb. 3.— (UP)— Joseph P. Kennedy's confirmation as U. S. ambassador to Great Britain has cast an interesting, if nebulous shadow on California's 1938 election picture.

It has been rumored that U. S. Senator William Gibbs McAdoo may obtain the appointment to Kennedy's vacant post on the federal maritime commission, taking him out of the California campaign as an active candidate.

With these rumors evidently originating among Merriam Republicans, the wish may be father of the thought.

The suggestion ,however, is not inconceivable.

In the first place, there is considerable agitation for a western man as Kennedy's successor. Being the big job it is, it would not be beneath the dignity of any of the western senators.

Many people, particularly Republicans, believe a strong G. O. P. candidate can beat McAdoo in November, should the former secretary of the treasury win the Bourbon nomination.

This same group is not so sure for that matter, that a strong Democratic candidate couldn's eliminate him in the primary. They remember the 1932 campaign when U. S. Senator Samuel Shortridge lost the Republican nomination to youthful Tallant Tubbs, who ran on a dripping wet platform. McAdoo in turn whipped Tubbs and Prohibitionist Bob Shuler.

The second step in Democratic strategy, according to the sources, will find J. F. T. O'Connor, who recently resigned as federal comptroller of the currency, making a race for McAdoo's senate seat instead of the gubernatorial nomination, as popularly figured.

Forces backing Lt. Gov. George J. Hatfield, due to disclose his political aims between now and the first of March, make no secret of the fact—although it may be whistling in the graveyard—that they are more concerned about whom the Democratic candidates in the gubernatorial and senatorial fields will be than of Hatfield's potential opposition in whichever race he decides to make.

Hatfield, incidentally, is on record with a statement that he can't be counted out of the running, even as a potential candidate for reelection to his present position.

Governor Frank F. Merriam, who recently celebrated his 72nd birthday enters the picture at this point on the wings of a seemingly fabulous whisper that he might surprise everyone and go for the senate job, regarding such a move as a shining climax to a long political career.

In all these rumors, or one, at least, may lie the answer to Hatfield's reticence to indicate earlier what race he intends to enter. McAdoo's withdrawal undoubtedly would catapult the lieutenant governor into the senatorial fight, while Merriam's entry there would leave the gate wide open for his declaration for governor.

In the final analysis, fantastic as these reports may be, it will be recalled that neither McAdoo nor Merriam have issued definite announcments of their candidacy for reelection Everybody has taken this for granted on the strength of obvious fence-building activities.

State Attorney General U. S. Webbs announcement that he would not be a candiate for reelection, terminating chief law enforcement officer, confirmed indications of his intentions which turned up during the last legislative session. Webb worked hard to odtain approval of a measure which would place alll his assistants and deputies on a civil service basis, insuring their future welfare if and when he retires. Themeasure was permitted to die later when it developed several points made it undesirable both to the state and the staff itself.

Assemblyman Gardiner Johnson of Berkeley recently requested Legislative Counsel Fred B. Wood to prepare legislation to end delay in gubernatorial appointments and keep state boards and commissions up to operating strenght at all times.

Johnson's idea is to prevent continuance in office of such state officials for months or years as de facto officres after expiration of their terms. He suggested that legislation be made to prescribe that unless the governor filled an unexpired appointment within 60 days after expiration of the incumbents term and no action of the incumbent thereafter should be recognized as legal, and that within 30 days after this 60 day period the lieutenant governor should make the appointment if the post has not been filled by the governor.

As an alternative to all these proposals, he suggested that the law abolish fixed terms of office, making them all at the pleasure of the governor.

STATE USE TAX IS UNDER QUESTION IN HIGHER COURT

SACRAMENTO, Feb. 3.— (UP)—Constitutionality of the California use tax was questioned in an appeal to the state supreme court filed here by the Douglas Aircraft corporation seeking return of $150 in taxes paid under protest.

Suit for recovery was filed against the state treasurer in Sacramento superior court. Judge Peter J. Shields denied the request, disagreeing with the corporation's contention that the tax discriminated against California establishments by placing them at a disadvantage with firms in states where the tax is not levied.

The tax is applicable to goods purchased in other states and brought into California for use.

The huge exhibit buildings of the 1939 Golden Gate International Exposition were pre-fabricated on the ground and erected in sections.

RUSTY, FAMOUS "STOOL" AT FOLSOM FOR 16 YEARS, ENDS HIS NINTH LIFE

FOLSOM PRISON, Feb. 2.—(UP)—Rusty, the cat who served this prison as a stool pidgeon is dead.

The aged feline, who spent all of his 16 years behind the walls, succumbed to old age shortly after paralysis rendered his left hind leg useless.

Rust was famous for his ability to detect the presence of "contraband" food in the convicts' cell. His unerring scent mystified many a convict who wondered where the guards were getting their information.

Rusty's technique was simple. He would smell the food in a cell, then sit in front of the door until his behavior attracted attention of a guard.

He would make friends with no convict and refused all offers of a bribe.

Born within the dates, Rusty was buried on the hill above the prison

Chinese Greet New Year in Sadness

There will be no fireworks and hilarity on Jan. 31, when San Francisco's famed Chinatown "celebrates" the Chinese New Year's Day. In memory of the deaths of their countrymen in the current Sino-Japanese war, the elders have declared the new year will be ushered in with mourning. Scenes such as the one above—as a devout Chinese worships at an altar in her home—will supplant the merrymaking of other times.

Better Light for Better Sight

Good Lighting IS GOOD POLICY!

IT IS good policy to check up on your lighting at least once a month. Replace lamp bulbs that have grown dim. Fill up the empty sockets and replace the small sized bulbs in floor and table lamps before headaches and eyestrain develop.

It is good policy, too, to see that the light on your porch or basement stairs is really good light. Most dangerous falls on stairs are caused by a misstep due to shadows and poor light. In the kitchen many cuts and burns might be avoided if just a little better light was by the kitchen sink or stove.

Good floor and table lamps today are inexpensively priced. Prices of lamp bulbs in sight-saving sizes are lower than ever and the reduced electric rates make better lighting a truly low cost monthly item. Check over the lighting in your home today.
